

MECH 525

Large Forklifts

Mobile cranes

The KAB 525 is a mid back mechanical forklift seat. Like all seats within KAB Seating's product range, the KAB 525 incorporates user-friendly controls and an extensive range of ergonomic adjustments. These features ensure prolonged user comfort and therefore epitomise the KAB Seating slogan, "Enter The Comfort Zone".

Like all KAB forklift seats, the KAB 525 is able to accommodate any additional safety requirements with the optional occupant sensor, armrests and lap belt with an electric buckle.

The KAB 525's size and mid height backrest make it especially suitable for large forklift applications that require regular rearward vision. In fact, it is typically used in instances where the KAB 61-K1 is too large to fit into the available cabin space.

- **Suspension Type:** Mechanical 52
- **Upper Type:** T5 mid back
- **Belt Type:** Lap belt
- **Suspension Stroke:** 100mm
