The KAB 714 is most popularly used as an aftermarket seat for medium to heavy trucks manufactured prior to 2008.

In the transport industry it is generally used in tighter cabin environments where our flagship KAB 554B is unable to fit. Such environments include the larger Isuzu, Hino, and Mitsubishi-Fuso trucks, as well as some of the smaller Freightliner, International and Scania models.

With a competitive price point and all the essential ergonomic features, you'll certainly be comfortable in a KAB 714.

KAB 714 Features:

- ✓ 5 position mechanical lumbar support
- ✓ Backrest recline adjustment
